

CICE[™]
Connecting the dots

Continuous
Improvement
throughout New Zealand

A neutral and independent body promoting and facilitating lean and CI throughout NZ. By Us: For Us.

ESCALATOR PITCH....this is it!

Elevators go too fast, this is about building a truly unique, sustainable and success network.
It is continuous. It's engaging. It's organic!

CICE is both a vision, C.I.C.E (Continuous Improvement Culture Everywhere), and a Network.....

The CICE NETWORK is..... a collaborative national network of like minded individuals all working to learn and share together to create sustainable lean/CI success. It's about connecting lean/C dots around the country.

The CICE VISION is: to build a national collaborative network of CI minded businesses, creating an ecosystem to take us forward. To be better than we can be, as individuals, businesses and as a country.

CICE Network Principles.....neutral, independent, no central expert, no one way, no agenda, methodology neutral, about facilitation not consulting, what the network looks like in practice is co-created.

CICE: Point of difference. What makes it unique?...The above principles but also the individual approach which allows anyone engaged and passionate about CI in NZ to be involved regardless of industry, role, method, approach.

The connector role is unique, the catalyst role connecting the dots. That we are personal and national

BENEFITS.....as demonstrated over the past 2+years, each bullet has a story behind it. It often takes an hour because of all the stories. The concept is easy, the in practice application is personal and can't be scripted.

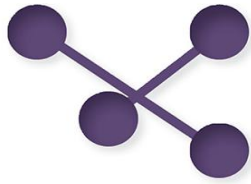

- Personal, targeted, connections, learning, sharing, not reinventing the wheels, but more than that.....for work, to courses, to information, to people... One-on-ones, meet ups.
 - Professional development, increased learning and understanding for individuals.
 - Same industry and challenges connections – networking brokering, making connections happen.
 - Commercial connections – yes these are happening.
- Targeted sessions e.g. 5S, VSM, how to start a lean journey, round table discussions, CI and strategy.
 - Sharing of themes, learning what's best practice in New Zealand.
- Exposure to lean in practice, demystify lean, application sharing to understand the how in practice.
 - Site visits amongst members and externally.
 - Regular bulletin/communications, Linked In Group.
- Recruitment successes – connecting the right people, cutting down search time, increasing success.
 - Sounding board facility. Knowing there's support there – a neutral forum to tap into.
- Access to big name companies though the network sign up is personal, and experienced lean/CI people.
 - Changes in thinking and direction based on networking and hearing stories.

In Practice?

Activities are based on needs, targeted sessions, connections, meet ups, conference, bulletin, database of everyone.
Helping to personalise everyone's lean/CI journeys.

TOP Level: HOW to join.....the sign up form below (on the website www.cice.co.nz), Connect, get involved.
