CICE is about: Connecting the lean/CI dots across NZ. It's neutral, independent and seeks to share collective knowledge and personalise experiences through networking, facilitation and promotion. Peer to peer, collaboration! Here's what people say and appreciate:

No agenda, neutral and independent.

Not selling anything – not about consulting – about facilitating and networking.

No one way or no one central expert.

About the individual, people, department, site, company in the big picture context of lean/CI in NZ.
