3 Opportunities to learn, network, share, engage and be inspired by your CI Peers

You'll be immersed in an entire room of passionate and active continuous improvement/lean people. We want to extract as much of our common learning, experiences, successes and solutions as possible.
PERSONAL (mixed tables/facilitated connections): **CONNECTED** (all in this together, helping each other): **US & US** (as flat a structure as we can make it, everyone has something to offer).

THE SESSIONS: 9 sessions, six stories and a number of activated networking opportunities.

- ✓ **Matched tables: To start the day.**
 - What's your common CI/lean quest? Seating you with people in common.
- ✓ **Group interactions: You asked for them!**
 - Themes in the room, experience? Group exchanges, a case study review.
- ✓ **Speed Networking: x2 sessions**
 - Always popular and improving. Like CI/lean snap. Matching offerings and needs.
- ✓ **Lean Challenge: x2 segments**
 - Your challenge at the top of a sheet of paper, rotated round a completely mixed table for their ideas and solutions to your challenge. Executed in different combinations.
- ✓ **Biggest takeouts/what next:**
 - What are you/we going to actually do next? Building on what we've all learnt.
 - Ensuring the connections made, the networks available, the learning lasts through the year.

Awesome variety in CI/lean in application with the following passionate people:

Amy Gibson, Comvita: General Manager, Operational Excellence

All the good stuff: How to get CEO and Senior Leader attention, building to CI & strategy alignment.

Mel Isaacs, Adecco: Branch Manager, Lean Administration Practitioner

Exploring and deploying CI in admin, plus great recruitment perspectives from candidates and clients she's met on her travels, and responses to a CI ad. Starting the conversation about finding CI people!

Matt Marsh, APL (Architectural Profiles): Fabricator Support (Internal CI coach)

A great metric tool to utilise as a start point for making and investing in improvement decisions.

Charles Tortise: Deming Safety Independent Consultant

Health & Safety, Not how you fill in a safety board, but engaging with people to get different results.

Koen Hendrickx, Goodman Fielder: National Logistics & Inventory Manager

The C in CI! How to make it stick: Strategy, leadership, the role of boards/CEOs, culture management.

Everyone loves the variety, mix of people, stories, industries and topics. We've continued this in 2018. We will be adding a practical based speaker in the mix too. Feedback from Wellington. Details TBA.
